

Matthew Ng

Systems & Gameplay Designer

Falls Church, VA | 571.419.2778 | matt1ng2001@gmail.com | Portfolio: <https://daimyish.github.io/> | LinkedIn: <https://www.linkedin.com/in/matthew-ng-925511265/> | GitHub: <https://github.com/Daimyish> | itch.io: <https://daimyish.itch.io/>

Technical Skills

Engines: Unreal Engine 5, Blueprints, Unity

Languages: C#, C++, Python, Java, JavaScript

Tools: Blender, Maya, Git, Perforce, Jira, Adobe Suite

Design: Systems Design, Level Design, GDDs, Playtesting, Agile / Scrum

Certifications

CompTIA Tech+, CompTIA A+

Game Projects

STEAM Dreams - Universal Phoenix Group | Game Design Intern (Summer 2024)

- Designed and iterated level layouts for mini-games within STEAM Dreams, a 3D adventure/RPG shipping to Steam.
- Performed systematic QA passes; documented and triaged bugs with reproduction steps and priority ratings.
- Contributed gameplay-flow improvements across K-12 STEAM quests, puzzles, and NPC interactions.

Phoenix Protocol - Roguelike Deck-Builder | Unity, C# | 4-Person Team (2024-2025)

- Designed and implemented the encounter-and-scene-management system with dynamic node-map traversal.
- Authored and balanced about 30 player cards across 3 playtest passes.
- Collaborated in weekly Agile sprints with code reviews, Git version control, and an itch.io build.

Tempus the Archmage - 2D Platformer | Unity, C# (2023)

- Designed multi-room levels with difficulty ramps, hidden areas, and environmental storytelling; scripted some enemy AI behavior trees in C#.

Deadshot & King Fisher - GADIG Team Projects | Unity (2022-2024)

- Contributed to two collaborative GADIG projects; performed crash testing, edge-case debugging, detailed bug reports, level creation, and layout testing.

Tabletop Narrative Design - D&D; Campaign Authorship (2018-Present)

- Authored multi-session campaigns for 4-6 players with original lore, NPCs, branching quest lines, encounter tables, and balance spreadsheets.

Work Experience

Lab Technician - George Mason University, CVPA (2023-2025)

- Maintained and troubleshooted hardware/software across a lab serving 100+ students; supported Adobe Suite, Maya, and game engine environments.

Swim Instructor - Tom Dolan / Big Blue Swim School (2019-2023)

- Designed lesson progressions for ages 4-13 across skill curves; adapted instruction in real time based on individual feedback.

Lifeguard - Community & University Pools | BLS Certified, EMT Trained (2016-2023)

- Maintained situational awareness over 200+ daily patrons; coordinated rapid-response decisions in a 4-person team.

Education

George Mason University - Fairfax, Virginia (Graduated 2025)

BFA in Computer Game Design | Coursework: Game Design Internship, Senior Capstone, Advanced Game Design Studio

Additional

- Built 5+ custom gaming PCs; thermal management, BIOS config, driver troubleshooting
- EYES Fellowship - Smithsonian Museum of Natural History
- Attended GAMESCOM 2018 (Cologne, Germany)
- Composed original music for personal and game projects
