

MATTHEW NG

Systems & Gameplay Designer

Falls Church, VA | 571.419.2778 | matt1ng2001@gmail.com

[Portfolio](#) | [LinkedIn](#) | [GitHub](#) | [itch.io](#)

TECHNICAL SKILLS

Engines: Unreal Engine 5, Blueprints, Unity

Languages: C#, C++, Python, Java, JavaScript

Tools: Blender, Maya, Git, Perforce, Jira, Adobe Creative Suite

Design: Systems Design, Level Blockout, Game Design Documents, Playtesting, Agile/Scrum

GAME PROJECTS

STEAM Dreams — Universal Phoenix Group

Summer 2024

Game Design Intern | Level Design & QA

- Designed and iterated level layouts for mini-games within STEAM Dreams, a 3D adventure/RPG shipping to Steam (UPG & Block By Block Publishing)
- Performed systematic QA passes; documented and triaged bugs with reproduction steps and priority ratings
- Contributed gameplay-flow improvements to an education-focused title spanning K-12 STEAM categories with quests, puzzles, and NPC interactions

Phoenix Protocol — Roguelike Deck-Builder

2024–2025

Systems Designer | Unity, C# | 4-Person Team

- Designed and implemented encounter-and-scene-management system; built dynamic node-map traversal with randomized encounter pools and persistent state
- Authored and balanced approximately 30 player cards across 3 playtest passes, adjusting cost curves and synergy weighting based on win-rate data
- Collaborated in weekly Agile sprints with code reviews; managed version control via Git; published playable build on itch.io

Tempus the Archmage — 2D Platformer

2023

Game Designer | Unity, C#

- Designed multi-room levels with difficulty ramps, hidden areas, and environmental storytelling; scripted enemy AI behavior trees in C#

Deadshot & King Fisher — GADIG Team Projects

2022–2024

QA & Programming Support | Unity

- Contributed to two collaborative GADIG projects; performed crash testing, edge-case debugging, and submitted detailed bug reports

Tabletop Narrative Design — D&D Campaign Authorship

2018–Present

- Authored multi-session campaigns for 4-6 players; designed original lore, NPCs, branching quest lines, encounter tables, and balance spreadsheets

WORK EXPERIENCE

Lab Technician — George Mason University, CVPA

2023–2025

- Maintained and troubleshooted hardware/software across a lab serving 100+ students; supported Adobe Suite, Maya, and game engine environments

Swim Instructor — Tom Dolan / Big Blue Swim School

2019–2023

- Designed lesson progressions for ages 4-13 across skill curves; adapted instruction in real time based on individual feedback

Lifeguard — Community & University Pools

2016–2023

BLS Certified | EMT Trained

- Maintained situational awareness over 200+ daily patrons; coordinated rapid-response decisions in a 4-person team

EDUCATION & CERTIFICATION

George Mason University — Fairfax, Virginia

Graduated 2025

BFA in Computer Game Design | **Coursework:** Game Design Internship, Senior Capstone, Advanced Game Design Studio

Certification: CompTIA Tech+

ADDITIONAL

Built 5+ custom gaming PCs (thermal management, BIOS config, driver troubleshooting) • EYES Fellowship at the Smithsonian Museum of Natural History • Attended GAMESCOM 2018 (Cologne, Germany) • Composed original music for personal and game projects
